1/11/2023 13:34:27	My experience about the program has been good so far. There has been many people there to help me.	I don't see any changes needed. 1/11/2023 13:52:41	I'm really enjoying the program. I love the extra support and the sense of community the program provides. It's 10/10.	I'd like to have more opportunities to get to know members of the program, but I don't really know how things can get any better.	The counseling is the best part of the program. This plus the additional support makes planning ahead for my major and career so much smoother, and I have no clue what I would've done if I wasn't in the program.	10	I actually don't know.	8	Lawyers and Jobs in Politics	No	Yes	
1/11/2023 14:02:37	I really enjoy the IMPACT AAPI program! I wish I had this kind of group in high school because community is extremely important. I was afraid to not be able to make friends or not know what I'm doing, but this group has been able to help and support me.	I don't think there are anything I would change! Maybe more events and hangouts.	I think IMPACT AAPI has been doing well in counseling and additional support because it can be hard for many students to reach out when going in blind to college. My favorite thing about the program would be the counseling and support because it is vital to being successful.	10	Some things I want to learn more about in CLP 5 is knowing when you find the career that is just right for you or what signs you can get to tell you that the career is something you are passionate about.	4	Marketing and Economist. 1/11/2023 22:46:48	I feel really supported! Everyone in the program—from my cohort to the counselor to the professors—have been super kind and helpful. Although I am still quite lost about my future, being in the program makes me feel like I can find my way faster than I would have otherwise.	I don't have any suggestions.	I think the program is very good at making a community. This cohort is the most comfortable group I have ever been in. The chosen instructors are also very good teachers; I like the information they teach and how they teach it.	9	It would be helpful to learn how to assess whether an opportunity for the industries you're interested in is good for you (e.g. an internship, a job, etc.).	1	Animator, illustrator, psychologist, psychiatrist, therapist, & counselor.
