

Amy Huang

How did you hear about the DASB Senate?

I was talking to a mentor about transferring schools and had expressed that I felt that it was hard at De Anza to find like minded people and make friends since I'm slightly older. She told me that she had a great experience at DASG as a senate back in 2018.

If you have held a DASB Senate position in the past, what was your position?

Why do you want to join the DASB Senate, and what do you hope to achieve?

When I initially started at De Anza, I had a hard time finding resources. I had many De Anza Alumnus offer help when I reached out. As a human, I try to always pass on the kindness that's shown to me by others. One of my mentors told me to look into DASG after I told her about my experiences at De Anza. After I started attending general meetings and internal committee meetings, I had learned that DASG serves a very tight-knit and interconnected community. I would love to contribute to a better future for the other students after me.

What are some of the skills and experiences that you will bring to the DASB Senate?

Previously, I had graduated from FIDM with a degree in Fashion Design. During my degree at FIDM, I held a position on the school outreach marketing team. My duties included creating content, monitoring social media, and directing current and prospective student questions to the appropriate departments. After my degree, I worked in technical design, and eventually was moved to a marketing sector job within the fashion industry. These experiences familiarized me with vital tools such as Adobe Suite, Office365, and Google Drive. I believe that these

skillsets would be very useful for Marketing and Communications and environmental sustainability committees.

What other commitments do you have and how will you manage your time?

I run a photography business part time, with most of my client bookings on Saturdays and Sundays. I also do have a single mother (she is currently enrolled in a masters program in counseling at Palo Alto Uni) and a little sister, so many days I have to split family duties such as sending my sister to school and cooking for the family. I intend to join the tutoring program for De Anza as a Macroeconomics tutor in the upcoming quarter. I keep a strict timetable on my calendar to plan time for events + assignments, and I also use notion to keep track of all my schoolwork and interest progresses.

Additional Comments (maximum 200 words)

What student concerns do you feel the DASB should address?

De Anza has many resources, but the resources is not marketed to students in a way where they can direct themselves to the help they need. How can we represent the student body accurately as a senate and address projects that matter to our population?
