

Out Door Benches

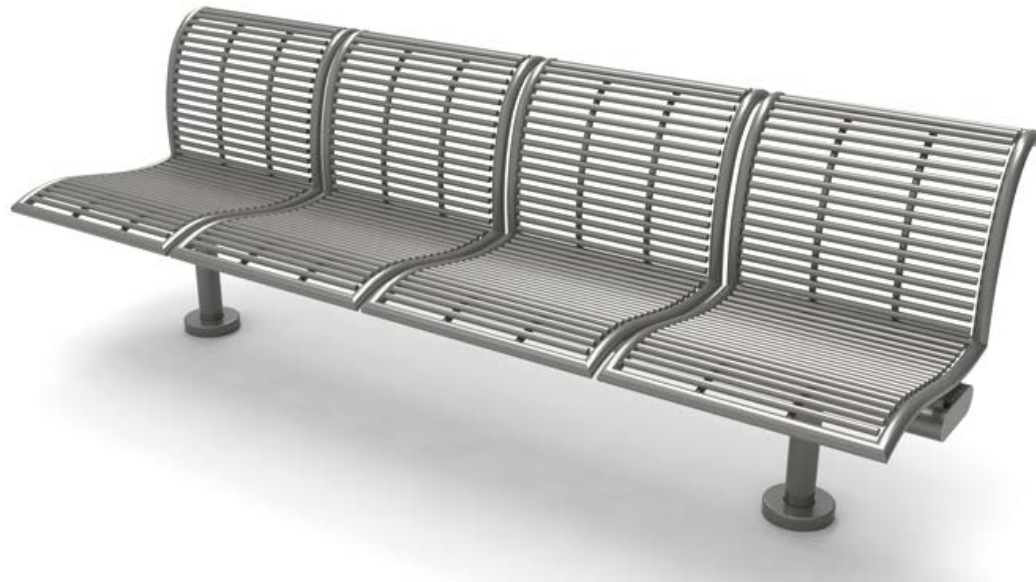

Existing benches

96 existing benches on campus

16 of which have commemorative plaques

Presidio Bench

Powder coated steel construction.

Bronze finish will match existing tables and chairs on campus.

Open slats to reduce water and debris accumulation.

Interchangeable parts will allow us to add commemorative benches in the future.

Commemorative Benches

One seat will have the tubes notched so that the plaque is recessed into the surface of the bench.

Commemorative plaques can be machined in bronze (what we have now) or etched into bronze or steel.
