Question 4: Other Reasons for Withdrawal From a History Course

An instructor sucks, she is racist and discriminates against people that are male and of color

Didn't care for the professors teaching style or communication with students.

Grades

I did not withdraw but I should have.

I was not getting enough help, kept getting low scores on essays. The teachers standards were very high and it was my first year in college. I did not want to take course if I was going to end up with a bad grade.

I wasn't prepared to write an analysis paper every week, especially before the chapter was discussed as a class to understand more of what the teacher would appreciate in my essay.

I withdraw because the instructor exam and lectures expectation like a university teaching not in college and it must be fun and not too strictly.....

instructor made class too boring to stay in

it was based on evolution-science not creation-science

An instructor would not reply to any of my emails , so I dropped

My first quarter and I wasn't able to handle it

Never withdraw

Teacher wasn't good at teaching.

The professor lectured all period. I was bored.

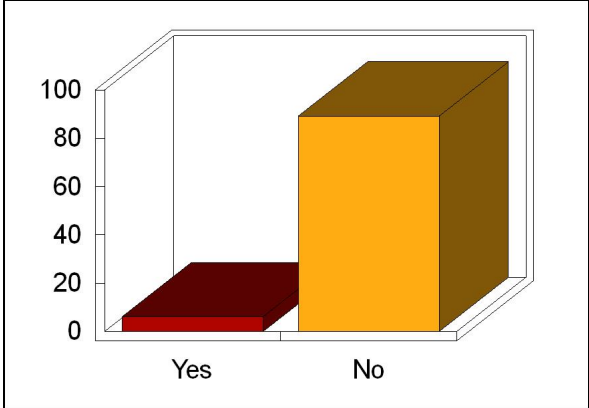

The teacher did not allow me to reschedule the final. The teacher's final time conflicted with my other class time. There was no possible way to take the final, and the teacher still did not accommodate.

Was not able understand teaching method
