Student Learning Outcome Statements (SLO)

• **Student Learning Outcome**: Evaluate real-world situations and distinguish between and apply exponential, logarithmic, rational, and discrete function models appropriately.

• **Student Learning Outcome**: Analyze, interpret, and communicate results of exponential, logarithmic, rational, and discrete models in a logical manner from four points of view - visual, formula, numerical, and written.

Attendance: If you are absent more than three times, you will be dropped from the course. Dropping the course is the student's responsibility. If you are show up late or leave early two times = one absent day.

Homework: Homework and classwork will be assigned and collected weekly an there is a binder check on the last day.

Tests: THERE WILL BE NO MAKE-UP EXAMS. The missed exam will be replaced with the average of all the exam scores (excluding the final). Missing more than one exam without notice may cause withdrawal from the course.
