

MATH 1B – MP1 Calculus (5 Units)

Asynchronous Learning on Canvas

Online (Canvas) CRN: 41838

Instructor: Nahrin Rashid

Email: rashidnahrin@fhda.edu or Canvas Inbox

Weekly in-person meetings: Monday & Wednesday 10:30 AM – 12:20 PM Room S57

Office hours via Zoom: Monday 4:45 PM to 8:00 PM or by appointment

Meet MPS Counselor/Coordinator: Melissa Maturino

Email: maturinomelissa@fhda.edu

Google Voice Number: 408.982.7307

Office: S56A |Office Phone: 408.864.8249

Melissa will be on campus every Monday & Wednesday 9:00 AM to 4:00 PM. You can schedule 1-1 appointments to meet with her. She is available by appointment every Tuesday & Thursday 9:00 AM to 4:00 PM online. Melissa will be joining our class every Monday and Wednesday from 10:30 – 11:30 AM to answer any counseling questions that you may have.

Tutoring Services: Do not wait to get extra help. Contact me or tutoring to get help!

The MPS Tutoring Services will offer online (Zoom) and in-person tutoring in Spring 2023. Please see our hours below:

- The MPS in-person Tutoring hours are: Monday and Wednesday 9:00 am to 1:30 pm.
 - The MPS [Virtual Tutoring Center](#) hours are: Monday - Thursday: 9:00 am - 2:30 pm and 3:30 – 5:00 pm. To join the Virtual MPS Tutoring Center, click [HERE](#). No appointment needed!
-

How to reach out: If you have a question, the quickest and easiest way to contact me is via the Canvas inbox or email me rashidnahrin@fhda.edu. If you email me during my online office hours, I'll try to respond immediately. If you email me outside of my office hours, then I'll try to respond to you within 48 hours. From our course, click on "Inbox" in the left global navigation menu to access your Canvas conversations.

Online Lecture & Weekly Meetings: We have in-person class every Monday and Wednesday from 10:30 AM – 12:20 PM to check in with you and answer any questions you may have. You are expected to attend these meetings. Plan to log in to Canvas several times each week. I will post pre-recorded lecture videos for each section on Canvas under Modules. You'll need to watch the lecture videos and take notes. If you have any questions, you can ask me during class or office hours or email me. You will be learning online or asynchronously, meaning that at your own pace, you will watch lecture videos, complete homework assignments, and take either a quiz or an exam every week. There will be set due dates for all of the homework assignments, quizzes, and exams. Although you will be able to watch the videos at your own time and pace, you are expected to complete them in a timely manner so that you are ready to take the quiz/exam and submit them by due date. It is very easy to fall behind in an online class, so you are encouraged to set aside at least 1 to 2 hours each day to dedicate to this class as opposed to doing all of the work in one day. It is strongly recommended that you download the Canvas app if you have a smart phone.

Prerequisite: MATH 1A or MATH 1AH

Course Description: This course examines the fundamentals of integral calculus.

Textbook: *Calculus Early Transcendentals*; 9th edition, by James Stewart, bundle with Webassign access code. The eBook with WebAssign can be purchased for \$60 directly from Cengage.

Calculator: A basic scientific calculator is required for this class such as Texas Instruments TI30XIIS Scientific Calculator. TI-83 Plus/TI-84 Plus calculator recommended but not allowed on Exams. This can be a physical or an online app, such as the one at <https://www.desmos.com/scientific>.

Software: All homework/quizzes will be done online using WebAssign which is an internet-based software. You will need to register at www.webassign.net to use this internet-based software. You will need the class key given by me in order to self-register. **Class key for WebAssign: deanza 1348 8885**

Student Conduct: You are expected to be honest and ethical at all times in the pursuit of academic goals. When completing your work on an assignment or in taking a test, be sure to do your own work. Copying or using another person's work is plagiarism or cheating, so please be sure to submit your own work. Anyone caught cheating on an exam will receive an automatic 0 and be reported to the Dean of the PSME Division.

Discussion on Canvas: Even though this is an online class, you are expected to participate. Post and answer questions in Canvas weekly discussion boards. These discussions will count for 5% of your grade.

Homework: Plan to log in to WebAssign daily. Homework will be assigned a few times a week and will have a due date. All homework must be submitted by 1:00 PM on the due date. You must set up an account by Friday, April 14 or you will be dropped from the class. If you have a homework problem you are not able to complete, you can send me your questions on WebAssign by clicking on "Ask my Instructor" or ask me during office hours. At the end of the quarter your lowest homework score will be dropped. Homework will count for 15% of your term grade. Please do not procrastinate! You can request extension on the homework up to five times during the quarter. **Class key for WebAssign: deanza 1348 8885**

Quizzes: There will be a quiz every week via WebAssign assigned intermittently throughout the term to test your skills on the concepts we are covering in class and online. Once you start the quiz, you will have 1 hour to complete it, and you will get two attempts on each quiz. **NO** make-up quiz will be given. These quizzes will count for 20% of your grade.

Midterms: There will be four exams during the quarter on WebAssign and in-person. Each exam will have two parts: an online portion through WebAssign and a handwritten portion which will be in-person. Once you start the online portion of the exam, you will have 2 hours to complete it. These exams will be completed online and will contain the materials covered in the lectures, online, and in the book. If you are unable to take an exam for any reason, **a makeup exam will not be given.** To compensate for this, I will drop your lowest exam score. These exams will count for 40% of your term grade.

Final Examination: If you do not take the final exam, you **WILL NOT** receive a passing grade. There will be a comprehensive final examination on **Wednesday, June 28.** This test will count for 20% of your term grade.

Accessibility Accommodations: If you have a documented disability and wish to discuss academic accommodations, or if you would need assistance in the event of an emergency evacuation, please inform me as soon as possible.

Important Dates

- The last day to add classes is Saturday, April 22.
- The last day to drop for a full refund and without a “W” is Sunday, April 23.
- Memorial Day Weekend - no classes, offices closed, May 27-29.
- The last day to drop classes with a “W” is Friday, June 2.
- Juneteenth Holiday – no classes, offices closed is Monday, June 19.
- Last day to request “Pass/No Pass” is the last day the class meets for the term.
- Final Exam Week – June 26 - 30.
- Graduation – June 30

Grade Breakdown

A+: 99% and above	B+: 87 - 89%	C+: 77 - 79%	D: 63 - 66%
A: 93 - 98%	B: 83 - 86%	C: 70 - 76%	D-: 60 - 62%
A-: 90 - 92%	B-: 80 - 82%	D+: 67 - 69%	F: < 60%

Tentative Schedule for Math 1B, Spring 2023

Week 1	Section 5.1, Section 5.2
Week 2	Section 5.3, Section 5.4, Section 5.5
Week 3	Section 6.1, Section 6.2 Exam 1: Wednesday, April 26 (Section 5.1 – 5.5)
Week 4	Section 6.3, Section 6.4*, Section 6.5*
Week 5	Section 7.1, Section 7.2
Week 6	Section 7.3, Section 7.4 Exam 2: Monday, May 15 (Section 6.1 – 6.5)
Week 7	Section 7.5, Section 7.6, Section 7.7
Week 8	Section 7.8, Section 8.1 Exam 3: Wednesday, May 31 (Section 7.1 – 7.5)
Week 9	Section 8.5*, Section 9.1
Week 10	Section 9.2, Section 9.3
Week 11	Section 10.2* Exam 4: Wednesday, June 21 (Section 7.6 - 7.8 & 8.1, 8.5)
Week 12	Finals Week Final Exam: Wednesday, June 28 Comprehensive

This syllabus is subject to change at the instructor's discretion.

Section 6.4* Select one or more applications to Physics from this section.

Section 6.5* Select one or more applications to Mathematics from this section.

Section 8.5* Select one or more applications to other areas from this section.

Section 9.4* Natural growth is required, logistics growth is optional.

Section 10.2* Integration including area and arc length required, differentiation is covered in Math 1A

Student Learning Outcome(s):

*Analyze the definite integral from a graphical, numerical, analytical, and verbal approach, using correct notation and mathematical precision.

*Formulate and use the Fundamental Theorem of Calculus.

*Apply the definite integral in solving problems in analytical geometry and the sciences.
